What are the risks and what could I get in return?

Risk Indicator

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the ability for you to receive a positive return on your investment.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the product's Annual Report or Prospectus available at <https://harringtoncooper.com/harrington-cooper-asset-management-funds/>.

This product does not include any protection from future market performance so you could lose some or all of your investment.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if Harrington Cooper Asset Management Limited is unable to pay out?

You may face a financial loss should the manufacturer default on their obligations, there is no compensation or guarantee scheme in place which may offset, all or any of, this loss. The assets of the Fund are held with its Depositary, Northern Trust Fiduciary Services (Ireland) Limited, which is a separate company. Should the Fund default, the Depositary would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.
