For more information on this product, please visit https://harringtoncooper.com/harrington-cooper-asset-management-funds/.

Date of Production 12 October 2026.

## What is this product?

**Type:**
This product is a UCITS Fund. The Fund is a sub-fund of Harrington Cooper UCITS Funds ICAV, an open-ended umbrella Irish collective asset-management vehicle with segregated liability between its sub- funds formed in Ireland under the Irish Collective Asset-management Vehicles Act 2015 and was registered on 12 October 2018. The Fund's assets are held through its Depository, which is Northern Trust Fiduciary Services (Ireland) Limited. Further information in relation to the Fund should be obtained from your financial advisor or distributor or is available at https://harringtoncooper.com/harrington-cooper-asset- management-funds/ in English.

**Term:**
This Fund is an open-ended UCITS and has an indefinite duration. The Fund may be terminated at any time in line with the constitutional documents of the Company. For full investment objectives and policy details, please refer to the Investment Objectives and Investment Policy in the Fund's Supplement to the Prospectus, which are available at https://harringtoncooper.com/harrington-cooper-asset-management-funds/.

**Objectives:**
The Fund seeks to achieve long-term capital appreciation by investing primarily in a globally diversified portfolio of equity securities.

**Investment Policy:**
In order to achieve its objective, the Fund will invest at least 80% of its Net Asset Value in a globally diversified portfolio of equities and equity-related securities of mid- to large-capitalisation companies. For these purposes, the Investment Manager considers mid- to large-capitalisation companies to be companies expected to have a market capitalisation of at least USD 1 billion. There is no geographical, industry or sectoral focus in relation to the asset classes to which exposure may be taken. The Fund may also hold cash and ancillary liquid investments as set out below.
The Fund may invest up to 100% of its Net Asset Value in equities and/or equity related securities including common stock, preferred stock, ADRs, EDRs, GDRs, and warrants (which will not embed a derivative).
Except where otherwise permitted under the Regulations, the equities and equity related securities invested in by the Fund will be predominantly listed or traded on Regulated Markets in North America, OECD markets, Western Europe and Asia.
The Fund typically maintains a portfolio of 25 to 35 equity securities of companies which, in the Investment Manager's view, exhibit above-average long-term earnings growth potential and are trading at attractive valuations. Such equity securities will consist of securities issued by mid to-large capitalisation companies which are expected to have a market capitalisation of at least USD 1 billion but are not limited to any industry or sectoral focus.
The Investment Manager employs a disciplined, bottom-up investment process driven by fundamental research. The investment process is designed to identify high-quality companies with sustainable competitive advantages, strong management teams and favourable long-term growth prospects.

**Fund Currency:**
The base currency of the Fund is USD.

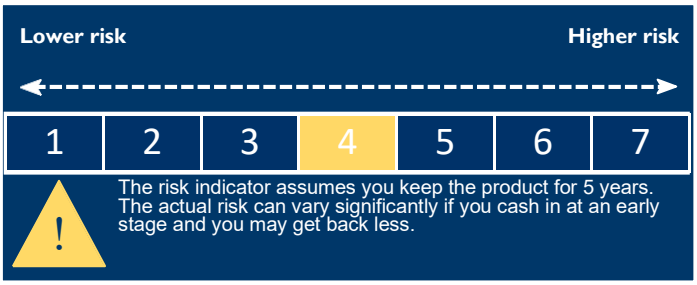
**Income:**
The shares will be accumulating. All income will be re-invested.

**Subscription and Redemption:**
Investors may buy and sell shares on any day on which the retail banks in each of Ireland and the United Kingdom are all generally open for normal banking business. An application must be submitted to the administrator, Northern Trust International Fund Administration Services (Ireland) Limited, by 12 noon (Irish Time) on the business day immediately prior to the business day of the purchase or sale.

**Intended retail investor:**
The Fund is suitable for any investor (institutional and, unless prohibited by the rules of a particular jurisdiction, retail) seeking to achieve capital appreciation over the long term (i.e., greater than five (5) years). As the Fund invests primarily in equities, investors should consider an investment in the Fund as medium to high risk.

# What are the risks and what could I get in return?

**Risk Indicator**



The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the ability for you to receive a positive return on your investment.

**Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the product's Annual Report or Prospectus available at https://harringtoncooper.com/harrington-cooper-asset-management-funds/.

This product does not include any protection from future market performance so you could lose some or all of your investment.

# Performance scenarios

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

**What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended Holding Period: 5 years

Investment: GBP 10,000

| Scenarios<br>Minimum: There is no minimum guaranteed return if you exit before 5 years. You could lose some or all of your investment. | | If you exit after 1 year | If you exit after 5 years (recommended holding period) |
|---|---|---|---|
| Stress | **What you might get back after costs**<br>Average return each year | **4,510 GBP**<br>-54.89% | **4,180 GBP**<br>-16.02% |
| Unfavourable[1] | **What you might get back after costs**<br>Average return each year | **9,030 GBP**<br>-9.69% | **12,070 GBP**<br>3.83% |
| Moderate[2] | **What you might get back after costs**<br>Average return each year | **10,940 GBP**<br>9.39% | **15,640 GBP**<br>9.35% |
| Favourable[3] | **What you might get back after costs**<br>Average return each year | **13,680 GBP**<br>36.79% | **17,970 GBP**<br>12.44% |

[1] This type of scenario occurred for an investment between January 2025 and June 2026.
[2] This type of scenario occurred for an investment between April 2021 and April 2026.
[3] This type of scenario occurred for an investment between October 2020 and October 2025.

# What happens if Harrington Cooper Asset Management Limited is unable to pay out?

You may face a financial loss should the manufacturer default on their obligations, there is no compensation or guarantee scheme in place which may offset, all or any of, this loss. The assets of the Fund are held with its Depositary, Northern Trust Fiduciary Services (Ireland) Limited, which is a separate company. Should the Fund default, the Depositary would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

# What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

**Costs over time**

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0 % annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario and the investment is GBP 10,000.

| **Investment: GBP 10,000** | **If you exit after 1 year** | If you exit after 5 years |
|---|---|---|
| Total costs | 55 GBP | 407 GBP |
| **Annual cost impact (*)** | 0.6% | 0.6% |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 9.9% before costs and 9.4% after costs.

# Composition of costs

| One-off costs upon entry or exit | | If you exit after 1 year |
|---|---|---|
| Entry costs | We do not charge an entry fee. | 0 GBP |
| Exit costs | We do not charge an exit fee for this product. | 0 GBP |
| **Ongoing costs taken each year** | | **If you exit after 1 year** |
| Management fees and other administrative or operating costs | 0.30% of the value of your investment per year. This is an estimate based on actual costs over the last year. | 30 GBP |
| Transaction costs | 0.25% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | 25 GBP |
| **Incidental costs taken under specific conditions** | | **If you exit after 1 year** |
| Performance fees | This product does not have any performance fees. | 0 GBP |

# How long should I hold it and can I take money out early?

**Recommended holding period: 5 years**

The fund has daily liquidity. The recommended holding period of the Fund assumes the Fund being the sole or majority holding of the investor. The recommended holding period is primarily based on the historic volatility of the underlying investments and is not directly applicable if used in a portfolio based on the investor's risk profile. The Fund is not intended for short term speculation purposes.

# How can I complain?

As a shareholder in the Fund, you are entitled to make a complaint free of charge. Any such complaint must be handled by the management company promptly and effectively. You also have the right to refer the relevant complaint to the Financial Services and Pensions Ombudsman after following the Fund's complaints process if you are still not satisfied with the response received. Further information on the complaints policy relating to the Fund is available from the Management Company, Email: Investor@harringtoncooper.com, Address: Harrington Cooper Asset Management Ltd., Block A, One Park Place, Upper Hatch Street, Dublin 2, Ireland

# Other relevant information

We are required to provide you with further documentation, such as the product's latest Prospectus, Past Performance and Annual and Semi-annual reports which are available at https://harringtoncooper.com/harrington-cooper-asset-management-funds/ from the Administrator or the Investment Manager in English free of charge. The cost, performance and risk calculations included in this KID follow the methodology prescribed by EU regulation. Past performance for the previous 10 years and historical performance scenarios are available below: https://harringtoncooper.com/ harrington-cooper-asset-management-funds/.
